Chamber Chatter

By IRENE GROVE

Your Albany Chamber of Commerce is making plans for Chamber of Commerce week, April 20-26. When Governor Brown signed the proclamation designating the week, he urged all citizens to become better acquainted with their Chamber of Commerce. This is the aim of your Albany Chamber of Commerce.

The state's first Chamber of Commerce was established in 1801. The number has grown until today there are 101 Chambers providing leadership and constructive community development programs for the fast growing cities of California.

WHAT IS A CHAMBER OF COMMERCE? It is a business community working together. It is the central agency that coordinates the forces of the community for its improvement and development — in business, in industry, and in the professions. Together, the chamber does what no person can do by himself.

WHAT DOES IT DO? It's job is community development. Your Albany Chamber of Commerce is working in fullest cooperation with your city government conditions and other agencies to improve business and promote new business in Albany.

It is the "Front Door" of the community, it welcomes newcomers, visitors and all others making inquiries about Albany. It

maintains directories, reports, surveys, maps, tourist, and travel folders all for your information. Recently arrived in your Chamber of Commerce office are a copy of the 1958 Edition of the American Medical Directory, Winter Sports Guide, 1959, complete information of vacation camps for all ages and your entire family, an Annual Report on California Highways, 1959, and many others.

We want you to visit the Chamber of Commerce office, and callers at any time — We are at your service!

Caras are being returned daily with information for Albany's City Directory — it will not be too long now.

Announcement has been made of the 1959 Store Lighting Show, sponsored by Northern California Electrical Bureau and Pacific Gas and Electric Company — Date and Time — May 19-22; place — Palm Room, YMCA, Berkeley. We urge all Albany merchants to attend. More information later.

Congratulations to the Casa Del Rancho on their redecorated dining room — stop in and have dinner and a real south of the border atmosphere.

Your Chamber of Commerce Manager has received word of his appointment as chairman for the Northern California Chamber

Oakland Spring Garden Show to Open April 18

America's two glamorous outposts — Alaska and Hawaii — will have the spotlight at the forthcoming 1959 California Spring Garden and Home Show April 18-25 in Oakland Exposition Building.

"Northern Lights and Southern Shadows," the great floral spectacle designed by Howard Gilkey, will offer choicest floral specimens from our newest state, as well as exotic tropical plants and flowers from the Pacific islands.

The landscaped theme panorama will be a four acre spectacle within the Exposition Building, with the east end of the structure given over to tropical plant and flower exhibits, including a large scale orchid display; and the west end devoted to towering evergreens, a waterfall and North Country presentations.

Outdoors, there will be four acres of model garden plots, indoor-outdoor living presentations, practical gardening features and a large shopping center contained within a huge tent entered from the Exposition Building.

John I. Hennessy is secretary-manager of the floral exhibition, and A. Hubbard Moffitt Jr. is president of the board of directors. Sponsoring group is the First Agricultural District.

Warning to Albany Property Owners

All citizens are warned to be aware of a group of Gyp Artists, presently working in California.

This group has two methods of operation and have been very successful in swindling a great number of people.

One of their methods is to solicit for roof repair jobs or painting jobs. In both cases, they talk the victims into believing that their work is superior where actually a very inferior product is used. In the case of roof repairs, diesel oil is used instead of wood preservative.

Their other racket is the sales of "so called" Irish Linen in which the product is actually a cheap grade of cloth manufactured in the East.

In case a solicitor should call at your home, ask to see his solicitor's permit. If he does not have a permit, call the Police Department immediately.

COUNCIL PLANS NEW FINANCIAL SET-UP

The Albany City Council occupied most of Monday evening in discussing plans to reorganize the city's financial administration in view of the resignation of City Treasurer Robert G. Olson who has resigned to accept a post with a private manufacturing firm.

The position of City treasurer, now elective, would become appointive, if, as, and when the city charter should be amended by popular vote. Submission of such a proposal to the electorate was included in a series of proposals submitted by Councilman Jerome Zank, chairman of the Finance Committee, Monday night.

The plan would include the formation of a Department of Finance, together with a director of finance supervising auditing, bookkeeping, purchasing and budgeting.

Also the city treasurer would be appointive. Mr. Zank's motion to inform the citizens that a move to change the terms of the charter, making the treasurer appointive, would be included in a future city election, passed 4 to 0. Mrs. Zahn abstaining on the ground she had not had sufficient time to study such a proposal.

On motion by Blank, Mrs. Marieta Ferreira, who has been assistant treasurer under Olson, was appointed city treasurer at a salary of \$425 a month. On a further motion City Clerk Myrtle McLean was made temporary purchasing agent and budget officer to "fill in" until the proposed changes can be effected.

In proposing the creation of a Department of Finance Councilman Blank asserted: "This is a \$600,000 a year business. We can't run this business like a country store. Central financial control is absolutely necessary." He pointed out that centralized control of finances and administration is practiced by most cities Albany's size. "Do we have to keep up with the Joneses," Mrs. Zahn said.

Albany High School Concert Orchestra Will Give Concert

Featured on the program will be a string bass solo performed by bassist Robert Smearden, and two short string quartets played by Dean Volheim and Roberta Schofield, violinists, Marian Schofield, violist, and John Bennett, cellist.

The Albany High Orchestra, under the direction of Ernest Douglas, will play the large movement from the "New World" symphony by Dvorak, the overture to "Iphigenia in Aulis" by Gluck and works by Handel, Rossini and the contemporary American composer George Frederick McKay. The program will end with a selection of songs by Frederick Loewe from the motion picture "Gigi."

Following the concert refreshments will be served by mothers of Orchestra members.

A small admission will be charged at the door, the proceeds to go toward the orchestra's uniform fund.

Atomic Explosions Topic At Rotary

City Attorney Robert J. Foley will be chairman of the day at next Tuesday's Rotary Club luncheon at Spenger's Grotto, on Fourth Street near University in Berkeley. California Chamber of Commerce Week, April 20-26, Proclaimed by Gov. Brown

April 20 through 26 is California Chamber of Commerce Week as proclaimed by Governor Edmund G. Brown under auspices of the California Association of Chamber of Commerce Managers. During this week, Chambers of Commerce throughout the State will tell their story of community service for the greatest number in helping to make California the great State that it is.

Each Chamber of Commerce of the 651 Chambers of Commerce in California will have its own story to tell, but all will have one thing in common, to promote the overall economic, agricultural, commercial, industrial, educational, cultural, and social welfare of the community they seek to serve.

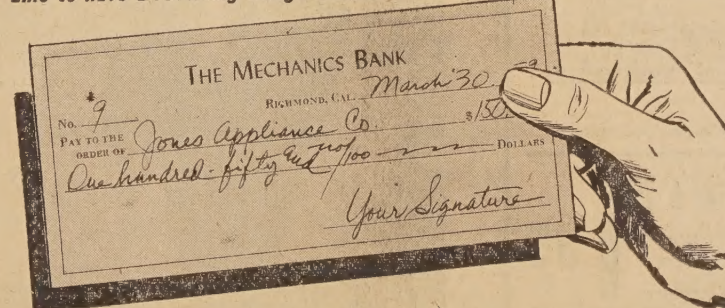

In California this has been a challenge well met. Industry has thrived, agriculture has reached

unprecedented heights, building activity has soared, and the overall economy of the State has prospered with the energetic leadership of thousands of volunteer members and paid professional experts in community development.

Governor Brown in his proclamation said, "the immediate past has been stimulating, and the immediate future challenging. The volunteer leaders and those employed by our Chambers of Commerce in professional capacities will meet this challenge with sound and constructive development programs for our communities."

The general public is invited to visit their local Chamber of Commerce and meet the people who create progress through participation, during the week of April 20 through 26.

Polio Epidemic Could Strike, Doctor Warns

Americans can expect to see more outbreaks of polio similar to the epidemic in Detroit last year, which struck more than 750 persons and caused 19 deaths, a top virus scientist claims.

Doctor Henry W. Kumm claims that the reason for this will be the failure of a large portion of the population to take advantage of the Salk polio vaccine.

Doctor Kumm, former research director of the National Foundation (formerly the National Foundation for Infantile Paralysis) and now chief of the division of virology and epidemiology for the reorganized foundation, added this warning: "There could be a repeat of the Detroit epidemic in San Francisco or any other city this year. The record of inoculation there is no better than Detroit's."

The scientist detailed these statistics of the Detroit epidemic which started in August, 1958: Of the first 500 cases of polio, 237 victims had received no vaccine and 64 per cent of those were paralyzed.

"The tragic thing is that 31 per cent of all Americans under 40 have received no shot at all," Dr. Kumm reported. "And there are now 18,000,000 doses of Salk vaccine sitting unused on manufacturers' shelves."

Play Programs At Terrace Park For This Month

"It's fun to play in Albany" is the slogan of recreation director Gene DeSoto whose spring recreation program has brought out the recreation clan in full force at Terrace Park, Francis and Tevlin Streets. The park is open to the younger play fellows for games, crafts, singing, dramatics and story telling on a regular schedule, Monday through Sunday.

Saturday, April 4, the younger fry will have a Hop-Scotch Tourney from 1:30 to 4:30 p.m. The event is open to all boys and girls from the third through the seventh grades.

During the week of April 6-10, the park Girls' Club will conduct a Girls' Week activities event from 3:45 to 5:15 p.m. daily. Events will include basketball, net ball, kick ball and other activities.

Cancer Crusade In Sore Need of More Volunteers

With the main effort of the annual Cancer Crusade only three weeks in the future, the Alameda County Branch of the American Cancer Society finds itself short-handed and today issued another appeal for volunteer workers to assist in typing, filing and general office work.

"We desperately need more help," said Milton L. Selby, chairman of the campaign committee. "Anyone who can give even a few hours a week can assist. What is more, volunteer workers can arrange their hours to suit themselves. The offices are open from 9 a.m. to 5 p.m. Volunteers can come in any time, stay as long as they wish, and leave when they wish."

The Branch's main office is at 354 - 21st Street, Templebar 2-7012.

Stenoscrypt ABC Shorthand Now At Albany Center

Are you familiar with the basic principles of the simplified Stenoscrypt ABC Shorthand? Do you know that it is a system using our alphabet to make phonetic abbreviations of words and syllables and with single letters taking the place of frequently-used words? For example, — I I EZ A AEC T L N (It is easy as ABC to learn).

A course in this simplified shorthand, enrolling those residing in neighboring communities as well as Albany, will be offered this Spring for the first time at the Albany Adult Education Center, 603 Key Route Blvd. It will be set up on a twice-a-week basis, Monday and Wednesday evenings, 7 to 10, so that the entire course can be completed by the end of the Spring quarter in June. It will be taught by Mrs. Maxine Stahlberg, who has taken special teacher-training in the subject as well as already having been trained as a teacher of general business subjects.

Teachers of the subject report, according to Robert G. Dennis, Principal, that the average student takes new material dictation at 90 to 90 words per minutes in 18 or fewer class sessions. The course, by using the letters of the alphabet instead of difficult symbols, taking months to memorize, is truly a simplified shorthand, Dennis states. It is, he points out, an ideal course for many — for the college student or other person wishing to take rapid notes; for the adult preparing for a civil service position; and for anyone who wishes to learn a shorthand system in a limited time.

Kiwanis Will Stage Pancake Breakfast

The Kiwanis Club of Albany-North Berkeley is preparing for its annual pancake breakfast to be held on Sunday, April 12 from 8 a.m. to 11 a.m. Club president Jack Clarkson announces that this year the affair will be co-sponsored by Explorer Post 24 of the Boy Scouts of America and the Sea Scouts of Ship 7. This is one of the events that the club participates in to finance its youth activities.

Marvin Wells is the chairman in charge and will be assisted by Wayne Leach and Jordan Hiratzka as well as the Boy Scouts and the club members. Tickets may be purchased from the participating scouts, the club members or at the Red Barn Restaurant located at 1742 Solano Avenue where the breakfast will take place.

**Congress Given
Offer To Pare
San Luis Costs**
WASHINGTON — The use of existing power transmission lines on the route of the San Luis Project in Central California was offered the Federal Government today with the prediction that it would save about \$10 million in Federal expenditures. The project calls for canals and pumps to transfer large volumes of irrigation water to the San Joaquin Valley.
The offer was made in letters to Senate and House committees by Robert H. Gerdes of San Francisco, Pacific Gas and Electric Company executive vice president. His letters included a sketch showing existing PG&E high-tension power lines closely parallel to the 150-mile route of the San Luis Project.
As proposed, the project includes lines costing in excess of \$4 million for Federal transmission lines, switchyards and substations. Gerdes said that about \$10 million of that amount "for duplicating transmission facilities is unnecessary." Existing PG&E lines have the capacity to serve all parts of the San Luis Project, he asserted, and power could be delivered at lower cost by PG&E than over government lines.
Gerdes emphasized his company's support of the project, and requested that the authorization bills be amended only to provide for Federal use of company transmission facilities where it can be done at less cost to the Federal government.

CHRISTIAN SCIENCE
God's goodness and all-power will be brought out at Christian Science services Sunday.
"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon.
Scriptural reading will include these verses from Psalms (103: 2, 3): "Bless the Lord, O my soul, and forget not all his benefits: Who forgiveth all thine iniquities; who healeth all thy diseases."
Also emphasizing the harmonious nature of God's creation are selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including (472: 25 - 30): "That which He creates is good, and He makes all that is made. Therefore the only reality of sin, sickness, or death is the awful fact that unrealities seem real to human, erring belief, until God strips off their disguise. They are not true because they are not of God."

Christian Science Society of Albany meets at 533 San Pablo Avenue. Sunday Morning Services are at 11 a.m. and the Wednesday Evening Meetings are held at 8 p.m. The Sunday School convenes at 9:30 a.m. every Sunday. All are welcome to attend the services and meetings.

FIRST BAPTIST
Guest speaker at both the morning and evening services this Sunday will be Rev. Marshall Luckey. Morning Worship Service begins at 11 a.m. Mrs. Wallace Hill will sing "The Lord's Prayer." The Chancel Choir under the direction of Mrs. Wallace Hill will sing the anthem, "I Walked Today Where Jesus Walked."
The Evening Gospel Service begins at 7 p.m. Mrs. Ivan Wright and Mrs. Fred Schlosser will sing a duet. Rev. Marshall Luckey will bring the message.
The Sunday School convenes at 9:45 a.m. with classes for all ages and with competent teachers. Wednesday evening at 7:30 p.m. is the service of prayer, meditation and Bible study.

ST. ALBAN'S EPISCOPAL
7:30 a.m. Celebration of Holy Communion.
9:15 a.m. Morning Prayer and sermonette followed by Christian education classes from the nursery through the adult Bible class, the latter being taught by the rector.
11 a.m. Morning Prayer and sermon by the rector on "The Shepherd and the Sheep." Nursery care is provided and a coffee hour, to which all are invited, follows.
The rector is the Rev. John Hathaway Blackledge.

GRACE LUTHERAN
"The Surpassing Friendship" will be the sermon topic of the Rev. O. R. Janke, pastor, at Grace Lutheran Church, Santa Fe Avenue at Ward, in both the 9:45 a.m. and 11 a.m. services next Sunday. Holy Communion will be administered in both services.
The lesson topic for the graded classes of the Sunday School meeting at 9:45 a.m. will be "Feed My Lambs."
The "Martin Luther" film will be shown tomorrow evening in the parish hall, beginning at 7:30 p.m. There will be no admission charge. Refreshments will be served by the Twenty-Four Fellowship Club following the showing.

New Course In 'Exploring The Known,' Started

Do you understand what the newspapers mean when they refer to "satellites in orbit," "rockets to the moon," and even "jet-propelled" aircraft? Do you sit quietly by wishing you could participate in conversations about "missiles," "clean" and "dirty" weapons, and the new electronic machines which perform the most intricate calculations? Then you may be interested in the timely new discussion class, "Exploring the Known," at the Albany Adult Education Center, 603 Key Route Blvd., which has been designed particularly for the lay person who does not have a scientific or mathematical background. Open to the enrollment of those residing in or out of Albany, the course will be held on Monday evenings, 7 to 10.

Taught by John Dyer, an employee of the U.C. Radiation Laboratory and research student in physics at the University of California, the course will cover a variety of subjects, ranging from rockets and satellites and their contact with the vast "outer space," to the tiny, fascinating world of the atom; the problems of "fallout"; and atomic power and the H-bomb. Since many of the important tools of modern science, such as the electronic brains and atom smashers are familiar to most people only from newspaper articles, they will be described and discussed, so that class members will have a better understanding of these modern miracles.

In brief, the course will at-

tempt to familiarize the students, according to Robert G. Dennis, Principal of the Center, with the many important scientific advances which affect us all, but which we do not understand. In addition to such topics as are listed above, the class schedule will remain flexible, to incorporate current events and "hot" news items as they occur.

Strict Attention

We have long been known for the strict attention we give the family's wishes. Each Ellis-Olson-conducted service is individually planned to include those features which are most important to the family being served.

WANT PROOF THAT QUALITY DRY CLEANING PAYS?

THEN TELL US WHICH KUPPENHEIMER SUIT IS BRAND NEW AND WHICH HAS BEEN SANITONE DRY CLEANED 25 TIMES!

You can't tell the difference? Well, neither could textile experts. That's because Sanitone Dry Cleaning keeps quality "alive."

Yes, just as it pays to choose quality fabrics like British-Woolens, and to insist on fine tailoring like that provided by Kuppenheimer... it's important to give your clothes quality care.

Sanitone with exclusive Soft-Set® Finish is the quality dry cleaning. It removes dirt and perspiration like magic. Clothes come back looking as fresh as the day you first wore them. No wonder you can't tell by looking that the man on the left wears the Sanitoned Dry Cleaned suit!

KUPPENHEIMER SWATCH TEST

If you think you could feel the difference between a brand new swatch of fabric and one that has been dry cleaned 25 times, this test is for you. Come in today and we'll prove that **QUALITY DRY CLEANING PAYS.**
